

ilektro

By PAUL AGNEW | DESIGNS

ilektro...
always the centre of attention.

Experience ilektro fireplace just the way you want it with an array of customisable settings that enable you to:

Adapt to the season... on a chilly Winter's night stoke ilektro to a roaring fire complete with 'active glow' fuel bed and crackling sound effect. Or dial it back to a gentle simmering flame with the heat turned off during the balmy season.

Adjust to the conditions... as natural light varies from day to night, tune the colour and intensity of the fire to match the atmosphere of the room. Set the heat to low Ambient or warm the room with the higher output Heating setting.

Set the mood... ilektro central downlight, flame and fuel bed settings combine to enhance the mood you want to create.

ilekto Linear Series is designed with contemporary spaces in mind. Expansive in its impact and modular in its form, ilekto Linear accentuates the focal area of any living space.

With a choice of sizes starting with the compact 950L for smaller intimate spaces and stretching to the bold 2600L making a dramatic statement in large open-plan areas. Flexible configuration options allow choices for a sleek flush fit or add extra dimension to the setting with a 3-sided bay window or 2-sided peninsula format.

Ultra slim framing provides a sleek pillarless finishing touch that lets ilekto Linear blend seamlessly into its setting.

MODEL	Width mm	Height mm	Depth mm
950L	877	581	319
1250L	1249	581	319
1650L	1658	581	319
2000L	2008	581	319
2600L	2598	581	319

ilekto Aspect Series is the modern take on a classic form.

Compact and poised, Aspect is perfect for a renovation project when coordinating with existing interior features.

Flexible configuration allows choices of a sleek flush fit or create extra dimension to the setting with a 3-sided bay-window or 2-sided peninsula format. Ultra slim framing provides a sleek pillarless finishing touch that lets ilekto Aspect blend seamlessly into its setting.

Aspect adapts easily to a classic fireplace setting where a mantelpiece or traditional surround is fitted.

Optional Mantel-Trims provide a refined finishing-touch for most fireplace architecture.
