The Paul Agnew Designs Tunnel Electric Fireplace combines modern innovation with timeless elegance, offering a seamless way to connect two rooms while adding warmth and style. Its sleek 1250mm design fits effortlessly into any interior, making it a practical yet striking feature for contemporary homes.

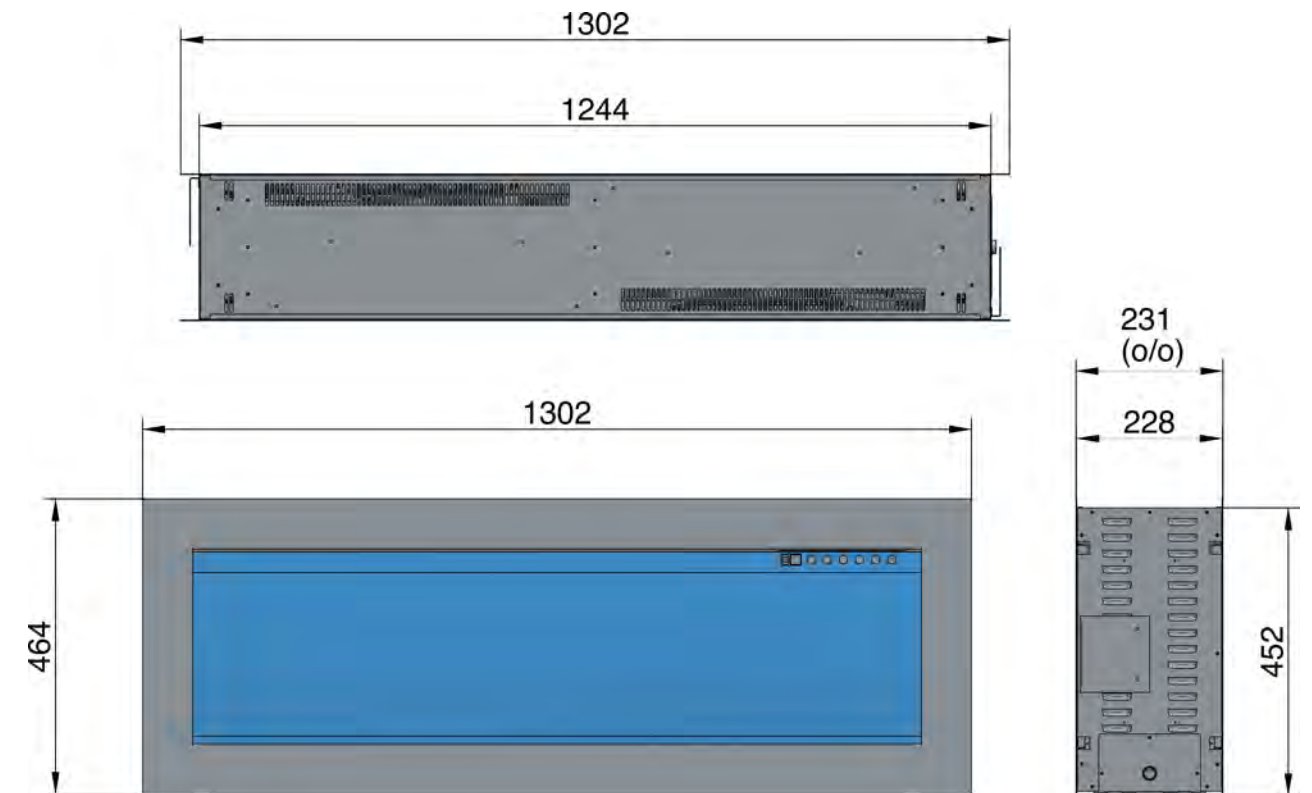

This fireplace stands out with its ability to heat two separate spaces at different levels, ensuring each room feels perfectly comfortable.

Controlled with two remotes for added convenience, it also features a unique privacy mode that lets you adjust the transparency of the glass, offering a perfect balance between openness and privacy.

The customizable ember bed adds to its charm, giving you the option to choose between sparkling crystals or hand-painted logs—both included with the fireplace. LED color-changing lights illuminate the ember bed, creating a warm and inviting glow visible from both sides.

With its advanced features, stylish design, and versatility, the Paul Agnew Designs Tunnel Electric Fireplace is a sophisticated addition to any modern living space.
