ilektro™

Stove electric fire

Crafted using parts and design principles found in real wood stoves, the ilektro Stove looks like the real thing even when powered off.

Without having the need for a flue or hearth, the Stove can be installed almost anywhere, making it perfect for those with limited space looking to bring warmth to their home.

Utilizing technology created for our flagship built-in ilektro range, we have brought our industry-standard flame to the classic stove fireplace.

ilektro FLAME TECHNOLOGY

The ilektro Stove delivers a lively flame that makes an impression in any space. Charred logs with a tailored 11 ember bed colours complete the fireplace experience.
