POSITIONING YOUR APPLIANCE

NOTE:

No fixtures are supplied to secure the appliance to the chosen wall. Ensure an appropriate fixing method is used depending on the construction material of the wall.

- When installing into a wall cavity space, a stud work enclosure should be built to house the appliance. Refer to frame out build sheet.
- Finish the enclosure in the chosen material ensuring cladding are pushed up to the edge frame around the glass of the unit.
- If your appliance is not level when installed the glass corner fit will be misaligned.

CAUTION

TELEVISION INSTALLATION MANDATORY REQUIREMENTS

When fitting a television above the fireplace the following installation must be adhered to.

Debris and dust will fall into the fan slots above the appliance causing damage unless protected. It is a requirement to set a shelf as shown below.

Option 1: Shelf to be made during framing

Option 2: Deflector plate as an accessories

CAUTION: Appliance warranty will be void if the shelf or deflector plate is not installed.

Option 1:

CAUTION**TELEVISION INSTALLATION MANDATORY REQUIREMENTS****Option 2:**

Deflector plate can be secured to wooden frame through self tappers; refer to detail A.

Rear side of the deflector plates can be secured to the fire place by picking up the existing screw holes; refer to detail A.

ilektro 1250 Elite
