Integra® – Timeless Elegance for Your Fireplace

Enhance your fireplace with the Integra® Anson cast iron arch insert. Precision-engineered and built to last, this stunning insert features smooth curves, a premium matte black finish, and a timeless design that complements both classic and contemporary interiors.

Crafted for durability and style, the Integra® Anson insert offers a perfect balance of tradition and innovation. Its intricate yet understated detailing adds a refined touch, making it a standout feature in any home.

For added versatility, the Integra® range includes the ilekto electric fireplace insert. Specifically designed to fit seamlessly within the cast iron arch, the ilekto combines classic aesthetics with ambient warmth—providing the atmosphere of a traditional fireplace without the need for flues or solid fuel.

## The Benefits:

### 1 Premium Patented Design with cast iron mouldings

Premium cast iron construction ensures exceptional durability, heat retention, and even heat distribution

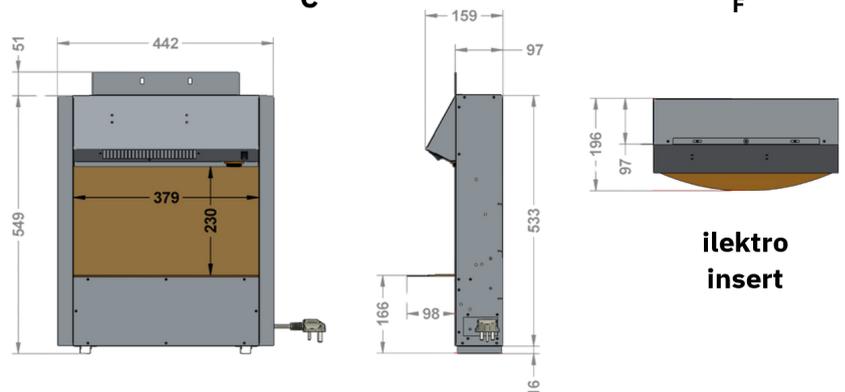

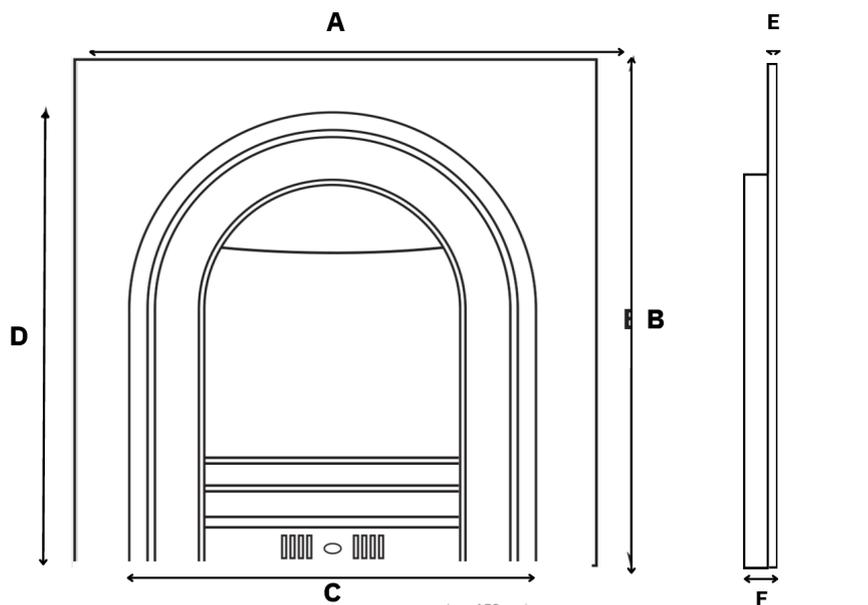

### 2 Classic arched design

Classic arched design with a sleek matte black finish enhances timeless elegance while seamlessly blending with modern and traditional interiors.

### 3 ilekto insert Compatible

Use with a Paul Agnew Designs ilekto insert for a modern solution to a classic design
