

PAD 320 Features

- Exciting hyper-realistic flame pattern with six vivid LED flame colour options - Orange, Yellow, Blue, Orange-Yellow, Orange-Blue, Yellow-Blue - allowing you to tailor the visual mood of the fireplace
- Five-level flame brightness control, enabling you to fine-tune the intensity of the flame to match your desired ambience
- Dynamic fuel-bed lighting, adding depth, realism, and a layered glow to the flame presentation
- Three adjustable heat modes offering year-round comfort - choose between fan-only ventilation, a gentle 1kW warming mode, or a powerful 2kW heating option to suit your space
- Three flame-speed settings, giving you full control over the movement and energy of the flame display
- Integrated overheat protection system designed to ensure safe performance and long-term peace of mind
- Programmable timer ranging from 0.5 to 8 hours, providing convenient, automated operation for daily use
- Immersive fire-crackle sound effect that enhances the sensory experience and brings added warmth to the room
- Multiple control interfaces, including a handheld remote, intuitive LVD touch panel, and smart app connectivity for effortless operation
- Designed exclusively for recessed installation, allowing the fireplace to sit flush within the wall for a seamless, built-in architectural finish

PAD Landscape 320

Warm up your home in every way with the PAD 320 - a contemporary electric fireplace designed to make your space feel more inviting. More than just a source of heat, it creates a calming, immersive ambience that enhances how you relax and unwind.

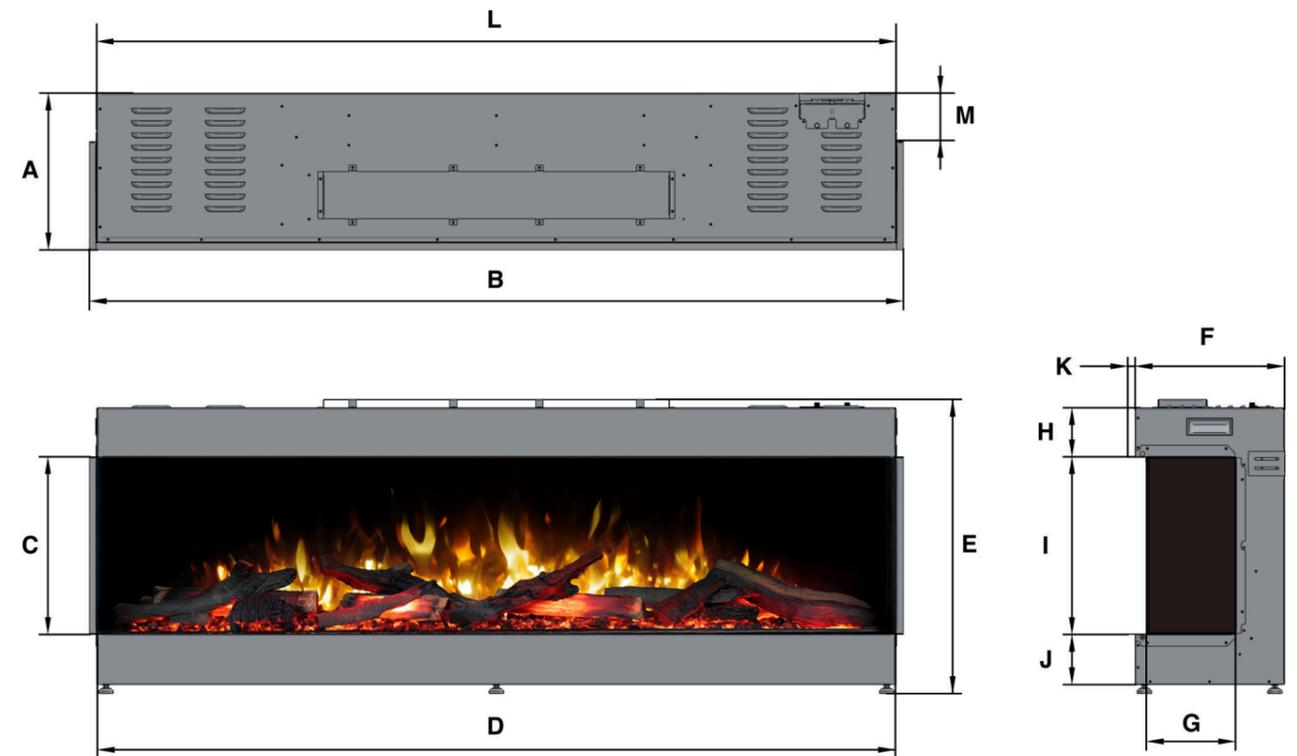

With its recessed, seamless built-in finish, and high-technology flame pattern, the PAD 320 becomes a natural focal point in any room. The hyper-realistic flame display offers six vivid LED colour options, paired with dynamic fuel-bed lighting and adjustable brightness levels to help you craft the perfect mood at any time of day.

Comfort is effortless with three heat modes - from fan-only airflow to a gentle 1kW warmth or a powerful 2kW heating option. Three flame-speed settings let you shape the movement and energy of the display, while an integrated fire-crackle sound effect adds a subtle layer of authenticity. A programmable timer (0.5 to 8 hours) ensures simple, convenient daily use.

Designed with you in mind, the PAD 320 offers multiple control options, including a handheld remote, intuitive LVD touch panel, and smart app connectivity, giving you complete freedom to personalise both the visuals and the temperature.

Blending innovation, ambience, and architectural versatility, the PAD 320 doesn't just warm your home - it elevates it. It's more than a fireplace; it's a statement of modern living.
