## Hologram

Transform your interiors with the ilektro Hologram 1300 and 1800, where cutting-edge holographic technology meets architectural elegance. These fireplaces are designed to be the ultimate centerpiece, seamlessly blending innovation and luxury to elevate any space.

Immerse yourself in the beauty of ultra-realistic flames, projected through holographic displays onto 3D log media for a mesmerising, lifelike effect. The intuitive ilektro app offers effortless control, allowing you to customise flame speed, height, ember bed lighting, and explore a spectrum of colors and animations to create your perfect ambiance.

Designed for versatility and sophistication, these models feature adjustable heat output for cozy warmth or a captivating flame display without heat, making them ideal for year-round use. With zero emissions, they embody eco-conscious living without compromising on style.

Effortless to install and adaptable to your space, the Hologram 1300 and 1800 can be configured as single-sided, three-sided, or corner options.

Combining innovation, sustainability, and timeless design, they redefine the modern fireplace experience.
